

Junior Activities at Hull Collegiate School 2016 – 2017

HULL COLLEGIATE SCHOOL

Junior School

Reading with Reception

A wonderful opportunity for Reception pupils to share stories and reading activities and build relationships with older members of the school community.

Singing and Dancing

Lots of fun songs and dances to get you warbling, wiggling and jiggling!

Marvellous Maths

This club is open to all abilities. It aims to provide extra practice in key skills and to develop mathematical thinking through a variety of fun puzzles and games.

Lively Voices

The health benefits of singing together are well documented - good for the body and soul! Lively Voices, for the younger pupils, helps pupils to experience the fun and enjoyment of singing together.

Art

In Art Club the children have fun developing new skills and exploring new processes. We use a range of media in response to a given starting point or project. We enjoy glass painting, printing, model making, clay work, painting, collage and many more activities.

U9 Football

Learn football skills and drills as well as play short matches. The club is open to boys and girls of all abilities. Football is great for keeping the body and mind active as well as developing vital team-building qualities. The Under 9s club is suitable for pupils in Years 3 and 4.

Fantasy Football

Ever wanted to be a Football Club Manager? In Fantasy Football Club you can pick your own fantasy football team and see how your team gets on each week. Open to existing members.

U11 Cricket

Play games of cricket as well as learn batting, bowling and fielding skills. The club is open to boys and girls of all abilities from Years 5 and 6.

U9 Cricket

Practice and play the greatest game on earth. No special equipment required just bags of enthusiasm.

U11 Athletics

Try and upgrade your athletics standards with extra time on the track. Citius - Altius – Fortius.

Running

Experience the fitness and joy of running. Track running involves strategy, stamina and determination. There will be an opportunity to run against your peers as well as against the clock or just come along for a healthy, gentle jog. Open to pupils of all abilities.

KS1 Rounders

Pupils will learn the basic three skills of the game of rounders – throwing, catching and batting – whilst having lots of fun and scoring many rounders by running round the posts.

Rounders

Rounders is a great British game to be enjoyed in the summertime – but don't be fooled into thinking that it is a relaxing and lazy sport. There is much skill and strategy involved. Pupils will develop their fielding and batting skills whilst learning how to gain most points for their team.

Golf

This activity will be run by Mr Oliver Cross who is Head of Instruction at The KP Golf Club. Mr Cross is also a PGA Professional Golf Instructor and SNAG Coach & Regional Trainer.

Children may attend in their normal school uniform and trainers. No special equipment is needed, just come along and be willing to experience the joy of playing golf.

Cycling Proficiency

Provided by trained and experienced cycling teachers, these lessons will enable children to ride safely on public roads. Sessions will take place within the school grounds and on nearby, quiet residential streets.

Sewing

The children make a range of items from bookmarks and decorations to small toys. Sewing helps children with hand and eye co-ordination, following instructions and gives them a sense of achievement when they have made something which they can take home.

KS2 Production Rehearsals

Pupils with main parts in the summer production will rehearse their lines and songs.

Fife

Learning the fife is a great introduction to playing any instrument, not just the flute. Small and light enough for little hands, pupils learn the same finger patterns that they would on the flute at a fraction of the cost of the bigger instrument. Many other skills that are transferable to any instrument are also gained, including rhythmic understanding, note reading and aural awareness. Group learning is a fabulous and fun way for pupils to explore making music on their own instrument, before progressing to individual lessons on another instrument

String Fantastic

A select group of string players will rehearse and play together under the tuition of Mrs Penny.

Chess

The Junior School Chess Club is open to pupils from Y1-6. In the Michaelmas and Lent terms, members are expected to have played chess before. They should understand how the pieces move and what the eventual aim of the game is and how to achieve it. In the Trinity term, anyone can join and those who can play are encouraged to teach those who want to learn.

Chess teaches higher level thinking skills such as the ability to visualise, analyse, and think critically. As children play chess, they begin to see the importance of thinking ahead, trying to figure out what their opponent might do next and what

their alternatives are. Chess levels the playing field as it crosses all socio-economic boundaries. It is a universal game, with worldwide rule consistency. Age, gender, ethnic background and language don't matter when playing chess. Everyone is equal on the chessboard.

Drama

This club gives pupils the opportunity to explore and experience different types of drama, whilst also giving them an autonomous platform to build self-confidence and express their own unique ideas.

Dance

Dance club incorporates a wide variety of modern dance styles including street dance. Dancing develops core muscle groups and gives the heart and mind a good work out. Children will learn special dance routines, culminating in a termly performance for parents to come along and be amazed.

Mandarin

China is one of the world's oldest and richest cultures, it is the most populous nation in the world and, would you believe, one fifth of the planet speaks Chinese. Mandarin Chinese is the mother tongue of over 873 million people, making it the most widely spoken first language in the world. At Mandarin Club, children will have the opportunity to learn this amazing language with a native-speaking teacher, Mrs Chong. Through fun and interactive activities, they will learn simple greetings, how to write their name in Chinese and memorise numbers. There is always lots of noise and fun at Mandarin club.

Judo

The martial art of Judo is a great way to learn self-defence techniques, get a great workout, and lower everyday stress levels. Judo is a form of martial arts that involves the use of certain holds, throws and locks. When you spar with your opponent in Judo, there will be a lot of grappling and controlled movements. We are fortunate

to have Karen Briggs, MBE, coaching in our school. Karen is a British judoka who won numerous World and European Championship medals in judo. She is considered one of the UK's most successful competitive judoka. She represented Great Britain in the 1992 Summer Olympics. Karen is great at coaching our children of all ages and always welcomes new members.

Science

All things scientific will be explored, experienced and – who knows – they might even be exploded too!

Archery

For all those sharp shooters we introduce KS1 to 'mini' archery through fun activities using a hand bows, crossbows and a bow and arrow. They learn skills in a safe environment while developing **focus, concentration, hand-eye coordination** cooperation and self-discipline.

Basketball

Participation develops simple tactics for attacking and defending. They pass, catch and move with the ball, finding space and keeping control. They think about how to outwit their opponents and get into good positions to score baskets.

You can view the full calender of clubs and activities on the school website under Junior, Extra-Curricular
