1 Overview

This document is United Learning’s Group Health and Safety Management Policy. It details the management arrangements in place for the protection and promotion of excellent standards in health and safety.

All schools and central office locations are required to work to the relevant Group Health and Safety Policies/Procedures and develop local procedural statements as necessary.

Where information pertains solely to the operation of an independent school and/or topic matters likely to be covered during an ISI inspection this is preceded by the abbreviation ‘**UCST**’ with the text surrounded by a blue border.

Effective health, safety and welfare management is not about ticking boxes, or filling out forms. It is about providing a work environment in which people are happy, safe, and healthy; all of which help to make United Learning an employer of choice.

Throughout these documents the term ‘United Learning site’ is used to refer to schools and central office locations and operations.

2 Approach

A full list of Group health and safety policies is shown in Part 3. These documents are published on United Hub and Health and Safety Coordinators are notified of any changes via Briefing Notes. The status of policies in development will be kept updated and published on United Hub in the ‘Policies’ section.

As time progresses, these individual policies will be supplemented by guidance documents and templates. The release of these documents will be as described above.

3 Requirements

All sites are required to hold the following information in a format easily accessible and available to all staff relevant to the current academic year/period of review.

- a) A signed copy of the Group Health and Safety Policy Statement displayed in a prominent location.
- b) A localised ‘Organisation of Health and Safety’ document (Part 2b).
- c) The localised procedural documents required as per the Group Health and Safety policies including any site devised pro-forma.
- d) The local management arrangements developed for each ‘department’ (secondary) or ‘phase’ (primary)
- e) The whole school risk assessments e.g. fire, legionella, traffic management, supervision
Note: some of these assessments will be extensive; signposting to the location of the full document is acceptable, but must be verifiable.
- f) The risk assessments relevant for each department/phase
Note: some of these assessments may be extensive; signposting to the location of the full document is acceptable, but must be verifiable.

Documents a) and b) must also be held as hardcopies, in an easily accessible location, and made available as necessary to inspectors, visitors, etc.

UCST – Having the information detailed above available in this manner will assist ISI inspectors during their visit.

4 Structure of the Group Health and Safety Policy

The United Learning Group Health and Safety Policy is divided into the three following areas:

Part 1 – Statement of Intent

This is the declaration by United Learning’s Chief Executive Officer and Chair of the Group Board regarding the commitment made to the health, safety, and welfare of employees, students/pupils and any other premises users.

Part 2 – Organisation

This section contains details of each individual employee’s role and responsibilities in relation to health and safety. Part 2a contains general duties applicable across the Group. Part 2b must be completed by the local establishment (school or central office) and populated with the names and roles of those with the specific duties contained within.

Part 3 – Arrangements

The arrangements section details the monitoring and review arrangements that are in place for health and safety. This section also references the standalone Group Health and Safety Policies and Procedures as applicable.

At the end of Part 3 is a declaration to be signed by the school head teacher and Chair of the LGB. This document (in its entirety) may then be published on the school website if so wished. There is no requirement to publish individual policies relating to health and safety.

The localised Policy must be published locally and communicated to all relevant staff at suitable intervals (usually annually) or whenever any significant changes are made. A copy must also be provided to the Group Health and Safety Manager at the start of each academic year.

UCST – ISI requirements are that policies relating to health and safety are ‘made available’ to interested parties. There is no requirement for individual health and safety linked policies to be published on the school’s website. It is sufficient to publish this document (localised and signed by the Head and Chair of the LGB) on the school website. Schools should still ensure that they have local policies in place for each of the topic areas detailed in Part 3 and that these can easily be presented to all interested parties, including ISI inspectors, as required.

Arrangements

1 Monitoring

United Learning has the following arrangements in place for the monitoring of health and safety standards.

Group-wide monitoring

- a) Health and Safety Committee Minutes – The minutes of the termly school Health and Safety Committee meetings are required to be sent to the Group Health and Safety Manager promptly after each meeting. These are then reviewed by the Group Health and Safety Manager with comments, advice and any actions required then returned to schools.
- b) Accidents and incidents – certain qualifying accidents or incidents must be reported to central office. Where necessary these will then be investigated to establish the root-cause and to help implement corrective actions as appropriate. Further instruction on these requirements can be found in the standalone ‘Accident and Incident Policy’.
- c) Periodic visits – The Group Health and Safety Manager carries out periodic topic based audits of all sites.
- d) Electronic Audits – from time-to-time the Group Health and Safety Manager will circulate electronic audits across the Group..

School monitoring

- d) Local monitoring – as part of an effective health and safety management system there is an expectation that schools will carry out local monitoring activities. Further instruction on is provided in the standalone ‘Monitoring Policy’.

2 Review

The Group Health and Safety Policy (this document) will be reviewed no less frequently than annually and at any other time that it is found to no longer accurately reflect the Group’s approach to health and safety management.

The standalone Group Health and Safety Policies and Procedures (detailed below) will be reviewed no less frequently than annually and at any other time that they are found to no longer accurately reflect legislative requirements or the Group’s approach to the management of risk for these topic areas.

Schools are responsible for the reviewing and updating of their localised version of this document, local risk assessments, departmental policies and other health and safety associated documentation. This should be generally be carried out annually or whenever they are found to no longer accurately reflect local practices or Group Health and Safety Policy requirements.

3 Standalone Group Health and Safety Policies and Procedures

Standalone Policies and Procedure documents are available for the following topic areas and are published on United Hub. Where these are available they must be followed.

These documents have been issued as standalone policies and procedures to facilitate their review and communication in a manner that does not become burdensome for schools.

NOTE: Some of these documents are not yet published, this is indicated below. In these circumstances, reference should be made to the requirements contained in the Group Health and Safety Policy published up to and including academic year 2014-15.

UCST – Once the standalone Group Health and Safety Policies and Procedures are published, these may be used as a direct replacement for any existing local policy in place. In the interim, schools should continue to use their existing policy documents.
